

SIGN LANGUAGE

appr. 100 meters

Finish (WP – special stage)

A special stage is timed (via light barrier or pressure hose) at the red finish flag symbol. Once the participant has passed the finish line, he/she continues **without stopping**.

The finish of a **secret special stage WP** is marked with

Announcement finish of special stage WP „long“

Longer special stages are marked with a yellow finish flag symbol positioned appr. 100 meters prior to the actual finish. „Surplus time“ maybe reduced by waiting prior to this sign. Once the yellow finish flag symbol is passed, **stopping is no longer allowed**.

Start for a special stage (WP)

Once you have passed the starting line, the co-driver monitors the set target time of the special stage (WP) by means of stop watches until the finish is reached.

The start of a **secret special stage WP** is indicated with

Preannouncement of a special stage (WP)

All special stages mentioned in the road book are indicated by a yellow WP sign. Starting allowance is given by rally personal.

Time check (ZK)

Time check is located at the red clock symbol. The co-driver hands the boarding card to the time staff at his/her individual time that can be calculated from the entries in the boarding card.

Preannouncement of time check (ZK)

The driver must stop prior to this symbol in order to wait for his/her **target time**. The yellow sign may be passed **one minute** prior to the respective target time of the participant. Example: target time 11:23 am, admission allowed from 11:22am on. Submission of boarding card from 11:23:00 to 11:23:59.

Checkpoint (DK)

Passing a checkpoint DK is confirmed in the boarding card with a stamp. There is no time check at a DK.

Preannouncement of checkpoint (DK)
